PLANS AND PROGRAMS STAFF WEEKLY REPORT FOR
PERIOD ENDING 2 FEBRUARY 1983

1. Progress Report on Tasks Assigned by the DCI/DDCI:

No tasks assigned during this reporting period.

2. Items or Events of Major Interest that have Occurred
During the Preceding Week:

a. CRAFT

In a continuing dialogue with the CRAFT program, the Plans and Programs Staff met with CRAFT representatives on 28 January to review and discuss business applications being incorporated into CRAFT software, and in particular, initiatives relating to property accountability. At the request of the CRAFT Manager the Deputy Chief, P&PS, was identified to serve on the CRAFT "Consultant Committee." Business applications continue to be attacked by the CRAFT program office and will continue to be coordinated with the Office of Logistics and appropriate users as requirements definitions and system software mature and are available for user testing.

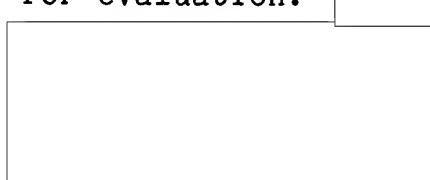

25X1

b. LIMS

(1) The LIMS Configuration Control Board (CCB), in a meeting of 1 February, determined that the Functional Requirements Document (FRD) will be updated with changes as prescribed in the Discrepancy Report review process. The objective is to provide traceability from objectives to preliminary requirements to detailed requirements, as performed through QAD/ODP by the quality assurance contractor. The FRD update will take second priority to the development of the Detailed System Requirements Document, now in preparation by the LIMS SDG.

25X1

(2) On 2 February, the LIMS Source Selection Board (SSB) held its first meeting to review initial findings of the cost and technical evaluation teams. Both contractors were judged to be in the competitive range; however, each proposal requires clarifications. Accordingly, questions will be asked of each contractor and they will be requested to provide a best and final offer for evaluation.

SUBJECT: Plans and Programs Staff Weekly Report for period ending 2 February 1983

b. Regulation Revisions

The following regulations were reviewed, commented upon, concurred in, or published during the past week:

Handbook of Required Regulatory Reading - Concurred

CIA Language Incentive Program, DRAFT B - Concurred

Our comments on DRAFT A had all been incorporated

Para 122; FHB 30-1, para 96, Earnings and Leave Statements - Concurred

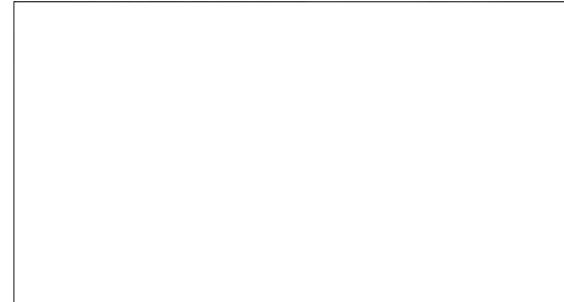

25X1
CIA Cable Reference File - We did not concur. OL/R&SB objected to the plan to reduce the retention period for cables by the Cable Secretariat from two years to two months. OL/R&SB agreed to reducing the retention period somewhat, but not to so short a time as two months. A small rectangular box with a thin black border, used for redacting information.

25X1

c. Training

25X1 attended the VM as a Word Processor
25X1 course, 24-28 January, at the Chamber of Commerce. A small rectangular box with a thin black border, used for redacting information.

Systems Analysis Branch/P&PS/OL
WEEKLY STATUS REPORT
Week of 24 to 28 January 1983

I. Major Activities During the Past Week:

A. Support to OL:

STAT FARS (Federal Automated Requisitioning System). SAB assisted IDSB/SD/OL in the effort to replace some disk packs for the FARS system. [REDACTED] (U)

STAT AWCS (Automated Weapons Control System). SAB assisted the DAC/SD/OL in the effort to replace several minitapes. These tapes are used in processing data to update the NIPS database for weapons. [REDACTED] (U)

STAT FEDPARK (Federal Paid Parking System). Personnel in SM&FB/LSD/OL were given assistance in formulating GIMS queries for the FEDPARK application. [REDACTED] (U)

STAT ACF2 (Access Control Facility 2). The ACF2 rule database for logistics was updated to reflect changes in personnel and data access requirements. [REDACTED] (U)

STAT MISCELLANEOUS. [REDACTED] Acting Chief, System Analysis Branch, P&PS/OL, met with [REDACTED] Chief, Financial Systems Support Branch, SSD/ODP, on Tuesday, 25 January, and discussed the schedules and tasks for the CONIF to GAS Interface Enhancement and the ICS/CONIF Interface. These interface modifications will be made to accomodate the Prompt Pay Act requirements. The SAB effort on these interfaces will require some 1500 hours of GIM programming. (U)

STAT [REDACTED] Chief, Plans and Programs Staff, OL, and [REDACTED] STAT Acting Chief, System Analysis Branch, P&PS/OL, attended a meeting of DDA ADP Coordinators on Monday, 24 January, at Headquarters. Terminal allocations, status of outstanding device requests, terminal security, WANG Alliance capabilities, and other ADP items were discussed. The meeting was chaired by [REDACTED] STAT DDA/ADP Coordinator. [REDACTED] (U)

II. General Items:

A. Support to OL:

STAT TRAINING. [REDACTED] attended the "VM Word Processing" course on 24 to 28 January at CofC. (U)

STAT [REDACTED] attended the "Automated Information Management" course on 25 January at CofC. [REDACTED] (U)

III. Problems:

A. Support to OL:

INFO (INFO Applications). The CHANGE command is inoperative in the INFO system. We discovered that the INFOUSER MODULE was modified on Friday, 21 January, with a message to call the HENCO Company. This was a programmed message in the software; however, no contact was made with us from the company that a new software version was to be implemented on that date and that some current commands would be unusable. IMS has received the disk with a new version to be loaded into VM. [REDACTED], Chief, Information Center Services Branch, ODP, will resolve this problem by using the disk to update VM with the new version. Effective immediately, his branch will provide the necessary support for the system and will be the contact point for inquiries concerning INFO. He can be reached on extension [REDACTED] and his branch is located in Room 2E21, [REDACTED] Building. [REDACTED] (U)
